

Pantera IV

Boat Color: N3110
Boat Driver: Larry Foy

Feel the Rush!

WOW ... it's like someone listened to the desires of every serious tournament fisherman, sat down with a piece of clay and molded the perfect 19' bass boat. This Pantera not only maintains the first 19' bass boat tradition introduced from the mid 80's ... it may have reached an apex. No smoke and mirrors here, this is the real deal.

From the newly designed all fiberglass hull this P4 is pure perfection in quality, craftsmanship, and boating innovations. The front deck maintains another first our patented recessed trolling motor pedal basin at the bow ... behind the pedal is nothing but storage all the way back to the consoles. Up front another first for bass boats ... recessed net and Golden Rule storage pocket instant access at your fingertips! Surrounding the net are six (6) storage areas on the front deck alone including 2 full length rod boxes, and a "step-up" ice chest.

The modular console design from the FTD has found its way into the design of the P4, bringing with it another first in the 19' industry is the availability of a built-in LCR on the face

of the console. An Italian design steering wheel with six (6) sides sporting a Bass Cat Logo is not only cool looking but also offers secure comfort while driving. Firm "long run" support is found in the Pantera IV's bucket seats, higher backs, and rolled bolsters also offer additional support.

The roomier rear section of the deck finds compartments spacious and deep a partner can stuff all of his day's needs in his "office."

Pantera IVs are also available with dual modular consoles the passenger's console has a grab bar plus a large glove box.

Compare the standard features, performance, handling, rough water ride, quality craftsmanship, customer satisfaction, and Bass Cats reputation to any bass boat on the market...bar none.

All Bass Cat Boats are made with innovative construction techniques. Our structures carry a Transferable Limited Lifetime Structural Warranty.

Specifications:

Length	19'5"
Min. Storage Length	24'3"
With Swing Away Tongue	21' 7"
(Add 4" for Yamaha Outboards)	
Beam	94"
Approx. Wt.	1525 lb.
